ΣΙΓΛΕΒ ΖΩΓΕ

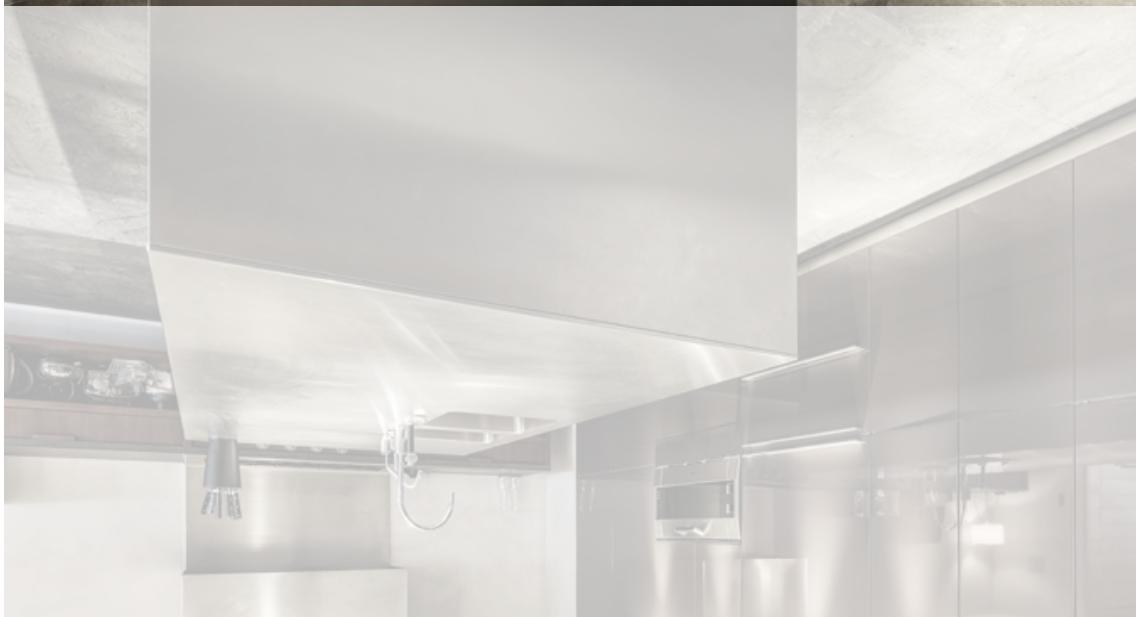

## Montegrappa Silver Mule

Using its modern classic, the Fortuna, as the base for an all-new model, Italy's most revered manufacturer of writing instruments, Montegrappa, has released its second "mule". Following the copper-clad Mule, launched last year and named after the famous cocktail, is the Silver Mule, an icy-cool, sleek alternative to the fiery warmth of its predecessor.

Entirely silver-plated, the Silver Mule offers a uniquely tactile experience, as its complete surface area – cap, body and the trim – has been vertically brushed and thus afforded a whiff of antiquity. This complements the clean, minimalist form, which recalls spacecraft of 1950s science fiction book covers and dream architecture of the 1930s. This marriage of modern and retro endows the Silver Mule with unisex appeal, a blissful combination of both feminine and masculine qualities.

To serve the widest audience, the Silver Mule will be offered in all three writing forms: fountain pen, rollerball and ballpoint. Also ensuring a perfect match with an individual's writing preferences, the fountain pen's nib will be available in the three standard grades of Fine, Medium and Broad. It is made of stainless steel, and carries the Montegrappa octagonal filigree decoration.

## Montegrappa Silver Mule

Ispirandosi a Fortuna - il suo "classico moderno" - il più celebre produttore italiano di strumenti da scrittura, Montegrappa, ha creato un modello completamente nuovo: il suo secondo "Mule". Degno successore della precedente versione in rame, lanciata lo scorso anno e dedicata al famoso cocktail, è ora il momento dell'eleganza siderale dell'argento di Silver Mule.

Realizzata interamente in "silver plate", Silver Mule offre un'esperienza tattile unica, grazie alla superficie con satinatura verticale. Questo dettaglio bene si abbina ad una forma pulita e minimalista, che ricorda le sonde spaziali disegnate sulle copertine dei libri di fantascienza degli anni Cinquanta e l'architettura da sogno degli Anni Trenta. Questo connubio tra moderno e retrò dona a Silver Mule un fascino unisex.

Per soddisfare le esigenze del più vasto pubblico, Silver Mule è disponibile nelle versioni: stilografica, roller e penna a sfera; mentre il pennino della stilografica è disponibile nelle gradazioni: Fine, Medio e Largo. Realizzato in acciaio inox con punta in iridio, il pennino è decorato con il caratteristico motivo "filigree" di Montegrappa.

A black and white photograph of a Montegrappa fountain pen and its matching cap. The pen is positioned diagonally across the frame, with its cap removed and placed above it. Both the pen and cap feature a textured, embossed pattern on their bodies. The word "Montegrappa" is engraved vertically on the side of both the pen and the cap. The background consists of a dark, modern building with a grid-like facade and a glass-enclosed staircase, all under a cloudy sky.
