Advanced materials and bold Italian thinking dominate the construction of the F1® Speed: a turbocharged study in writing technology, developed by the global pacesetters in pen design.

F1® Speed transfers Formula 1® technology and flair to the science of writing – fusing high-technology materials and engineering in a radical design package to set pulses racing.

A computer-engineered, flared barrel combines aerodynamics and ergonomics to deliver exhilarating optics and dynamic writing performance.

A carbon-fibre grip section provides unrivalled strength and stability, transitioning smoothly to the barrel via a custom-designed, graduated 'Monza' step.

Carbon composite, black ruthenium and high-gloss lacquer echo the performance and glamour of motorsport's greatest spectacle.
