mia

October 2021

*Don't let her vintage looks and good old-fashioned value fool you:
Mia is made for the modern writer.
She's easy to admire, and even easier to love.*

mia

Mia connects with the golden age of Italian writing without recourse to indulgence. She is nostalgic, yet pragmatic, and oh so pretty to the eye!

Classic Italian design is hard to find on good, old-fashioned terms, but Mia makes it possible. While she borrows from the past, her outlook is thoroughly modern: crafted from robust, sustainably conscious materials and engineered to work wherever you work. Features include:

Montegrappite artisanal resin body. Our proprietary, boutique-blended acrylic cuts back on waste.

Four vibrant colours. Mia is dressed to go anywhere, and always gets a second glance.

Steel-nib fountain pen, rollerball or twist-action ballpoint. Handmade in Italy.
