

THE

# BATMAN

MARCH 2022

The background of the entire image is a dark, atmospheric scene of a city at night, likely Gotham City, with rain falling heavily. The rain is depicted as numerous white diagonal streaks against a dark blue and black background. In the distance, the silhouettes of city buildings are visible, including a prominent tall skyscraper on the right side. The overall mood is gritty and dramatic.

**The Batman: Limited Edition  
by Montegrappa. Write with a  
vengeance!**

**Montegrappa returns to Gotham City bolder than ever, with a fusion of hyper-modern metals steeped in the mythos of The Batman. Crafted from high-grade titanium and cloaked in blackened brass, our tribute to the icon of cinema and comics is primed for action.**

Tap your inner strength with the most muscular Montegrappa ever made. A daring redux of our famous octagonal grip combines advanced engineering with fearless design, drawing on the ingenuity of Bruce Wayne's Batsuit for inspiration.

Complex titanium body is sculpted piece-by-piece using numerically-controlled machining. Segments are tumbled twice to leave a raw, industrial finish.

Detailed solid-metal components are inspired by Batman's gauntlet, grapple gun and chest-plate logo. Polished black ruthenium gives brass a resilient, menacing sheen.

Editions of 330 rollerballs and fountain pens recall Batman's print debut on 30 March, 1939. Display yours with an exclusive, lacquered display stand.
