Venetia salutes a long legacy of creative craftsmanship, and the charm of one of Europe's most charismatic cities. The singular savoir-faire of Venice is expressed in a vintage writing silhouette, brought back to life after nearly a century in our archives.

Throughout history, artistic flair and tenacious work ethic have determined the fortunes of Venice. On Venetia, adventurous 1920s shaping captures the optimism of a region in rebirth, and a burgeoning artisanal industry that was already earning a reputation for Italy's most coveted and reliable pens.

- Handmade in the same location as the original, Venetia is full-bodied, showcasing the lathing prowess of early-era Montegrappa with bullet-nose tips and dashing, gold-plated brass trims
- Reproduced in diamond-engraving, our 1928 'touring' logo was a denomination of origin prized throughout Italy, and marks the first recorded use of the Montegrappa name
- Relive the past with Montegrappa Vintage Class. Modern upgrades include ballpoint and rollerball modes, alongside fountain pens in three configurations: steel, 14K gold and 14K gold flex.
