

PRINCE ALBERT II  
OF MONACO  
FOUNDATION

I COLORI DELL'OCEANO

APRIL 2023

*“Oceans, in their beauty and mystery, unite  
human beings whatever their situation,  
nationality, or faith.”*

Fondation Prince Albert II de Monaco

**The oceans play a crucial role in supporting critical ecosystems that regulate the world's climate. Mankind's continued misuse of this precious resource threatens our planet's future health, making communication and leadership on ocean protection a priority of the highest order.**

Co-designed by the Prince Albert II of Monaco Foundation, *I Colori dell'Oceano* highlights the ocean's vitality and the environmental organisation's efforts to galvanise action towards its preservation. Crafted from considered artisanal resin, a melange of kaleidoscopic coral colours swim at its surface.

- ✦ Our signature ruzzolino clasp terminates a sculpted oyster-shell clip. Its pearlescent finish references nature's ability to create beauty from impurities...inspiration for the task ahead
- ✦ Montegrappite artisanal resin leaves an environmental footprint smaller than conventional acrylics. Locally sourced and blended by hand, it lowers waste levels while recycling material offcuts
- ✦ Together with 999 rollerballs, 999 fountain pens fitted with a 14K gold Monegasque nib symbolise the limited resilience of marine ecosystems and their need for protection

**PRINCE ALBERT II  
OF MONACO  
FOUNDATION**

**The Prince Albert II of Monaco Foundation manages and supports a wide range of projects, prizes and grants aimed at fighting climate change, safeguarding biodiversity and preserving ocean health.**

Founded by H.S.H. Prince Albert II of Monaco to protect the environment and promote sustainable development, the Foundation acts locally and globally – supporting research, innovation and social awareness programmes, both public and private, since 2006.

Montegrappa is honoured to partner with the Foundation and contribute to its efforts with proceeds from this edition. We wish to extend special thanks to Dr. Marco Colasanti, President of the Foundation's Italian branch.
