**SOMETIMES BEAUTIFUL IDEAS NEED
TIME TO BECOME ELEGANT. ITALIAN
TECHNOLOGY AND DESIGN BRING
MODERN FUNCTION TO CLASSIC FORM.
EXPERIENCE THE MANY SIDES OF
MAGNIFICA.**

Technology can be an amazing muse. It was while analysing a complex 1930s silhouette that computer modelling revealed a profound geometric elegance. From this realisation came the urge to invent, and the impetus for a new shape that is – quite simply – Magnifica.

Decorative, mid-century design takes an unexpected turn on a writing instrument with unmatched nuance, precision and ergonomic verve. “Dodecagonal” is just one of the words that will flow easily when you feel the undulating, inviting grip of a rare ‘modern classic’.
